From the Director's Desks

Hello Readers,

I wish to share that during this quarter (October - December) of 2023-24, 3224 candidates have been trained in various long term, medium term, short term, skill development, sponsored and Specialization training programmes.

Common facility services are provided at nominal charges to footwear MSMEs. 507 numbers of job work and consultancy services have been done during this quarter. Interested footwear MSMEs are requested to make use of these facilities, further details are at page no. 54-58.

As part of the "Seminar Series", during this quarter of 2023-24 three seminars were conducted, 15th Seminar on I CAD 3D Design and 3D materials, by Mr. S. Baskar, PR Groups – CMI Machines Pvt. Ltd. 16th Seminar was conducted on the topic Concepts in Footwear Design and Development by Shri. S. Many Selvaraj, Senior Technocrat, and 17th Seminar was conducted on the topic COMELZ Optimum & Automatic Nesting System and Digital Cutting System by Shri. Arvind Pathak, Technical Head from M/s. COMELZ INDIAPVT. LTD

During this quarter, the following 2 courses have been added by the Institute; 1. Optitex PDS-21-Leather Goods CAD 2D, 2. Optitex PDS-21- Leather Goods CAD 3D.

This issue of the chronicle consists of articles on

1. Pediatric Gait Abnormalities – Angular Variations, by Mrs. N.S. Shai Lakshmi, Faculty
2. Fair Compensation, by Mrs. Chandralekha Ganesh, Management Faculty
3. Leather from Fruit waste (in Tamil) by Shri. S. Welington Raja, Technical Faculty

With all support from Footwear Industry fraternity, the Institute keeps progressing.

Your valuable suggestions are always welcome for the qualitative improvement of the Footwear Chronicle.

Wish you all a Happy and Prosperous New year.

K.MURALI
Director

CFTI, CHENNAI SIGNIFICANT ACHIEVEMENTS OCTOBER - DECEMBER 2023

ABOUT THE INSTITUTE

Central Footwear Training Institute (CFTI), Chennai is a Govt. of India Society functioning under the aegis of Ministry of MSME (Micro Small and Medium Enterprises), as MSME - Technology Development Centre, a pioneer Institution rendering services in human resource development for footwear and allied industry through imparting various training programmes on Footwear Designing & Manufacturing Technology.

This Institute is the oldest Footwear Training Institution in the country came into existence in July 1957 in the name of Central Footwear Training Centre with the assistance of Ford Foundation engaged in providing trained manpower to the shoe industry. The departmentally run Central Footwear Training Centre was converted in to an autonomous Institution (A Government of India Society under Ministry of SSI) w.e.f. 1.1.96 for better functional autonomy. The Institute has been modernized by "National Leather Development Programme" (NLDP) Project during 1993 under the United Nations Development Program (UNIDO) and is fully equipped with state-of-the art machinery to impart training in the modern methods of Footwear manufacturing. The affairs of the Society are governed under the Chairmanship of Additional Secretary & Development Commissioner, (MSME), Ministry of Micro, Small & Medium Enterprises, and Govt. of India with an objective of quicker implementation of managerial decisions followed by Governing Council members from Govt. of India, State Government of Tamil Nadu and from the Industry.

CFTI situated in the Prime location of Guindy at Chennai having the state of Art Infrastructure for machinery and facilities to train in the area of footwear science and engineering. The facilities includes modern classrooms, workshop with world class Footwear Machines, 3 D Shoe CAD/CAM lab for Shoe Design & Development, Common facility services and all other students amenities like library, Sports centre, conference hall and Student's hostel. CFTI also having need based 33 Skill Training Centres to cater training services in the main hub of Leather Footwear manufacturing area.

CFTI conducts various Long term, Short term and Part time techno managerial courses in Footwear, Leather Goods and allied subjects. One of its premier courses are Two year Diploma in "Footwear Design and Production" which is approved by Textile Institute, London, UK and 1 ½ years Post Graduate Higher Diploma in "Footwear Technology & Management Studies" is accredited with Textile Institute, London, UK. This Institute also conducts various NSQF approved short term courses, Customised courses and part time evening courses based on the jobrole demand of the Industry for freshers, Semi-skilled people as well as entrepreneurs.

Special Mentions

- CFTI, Chennai is certified as ISO 9001:2015 organisation after continuous improvement in the Quality Management System

- & to bring in standardization in all the areas of this Institute.
- CFTI, Chennai is a Technical Institute with Quality and Modernization as its calling card.
- CFTI, Chennai has carved a niche for itself for training and making 'Industry Ready' footwear professionals over the last many decades.
- In its quest to always remain ahead of the curve and to equip its students with the latest developments in Technology, Management Practices, Market knowledge, Quality and Standardization CFTI, Chennai has raised its benchmarks to meet the global market demands and global performance benchmarks.
- The students who graduate out of CFTI, Chennai are equipped with the most advanced knowledge as well as hands on exposure to the latest Technological developments which sharpens their skills and enables them to help the Industry march forward as they pursue their careers in the Industry.
- CFTI, Chennai is adequately equipped and has established itself as a globally competitive "Centre of Excellence" in the area of Leather and Leather Products which offers knowledgeable and well trained personnel providing the skills and leadership covering the entire gamut of the Leather and Leather Product Value Chain This is an asset to the Indian Leather and Leather Product industry.

The Objective's of CFTI's are

- (i) To train personnel in footwear technology as per the requirements of the trade and industry.
- (ii) To provide training facility to trainees in the Footwear and allied Industry with a view to upgrade their skills.
- (iii) To train footwear designers.
- (iv) To undertake courses in Management of Footwear Industry.
- (v) To train personnel for maintenance of Footwear Machinery.
- (vi) To design and develop moulds and dies for the Footwear Industry.
- (vii) To introduce modern technology in footwear design/Industry.
- (viii) To assist and promote technology up-gradation in footwear industry.
- (ix) To develop products and design with a view to secure advantage in export production.
- (x) To foster appropriate linkages between Central Footwear Training Institute and Industry for utilization of existing capacity and their up-gradation and to undertake consultancy services for development of Footwear Industry.
- (xi) To establish linkages with educational, research and developmental institutions in India and abroad, and to collaborate with them in training, research and development.
- (xii) To organize databases and information dissemination on footwear technology, export marketing, etc., and to establish suitable library and Resource Centre for trainees and industry.

In common terms, CFTI renders it's services on Training skilled workforce in both Long term as well as Short term courses and are much popular in the industry for imparting technical skill in the workshop areas of footwear manufacturing and processing. The prime importance of CFTI is well known for its hands on experience on the machines and art of skilling. The volume of the trainees trained by CFTI is high and we can see at least one CFTI Alumni in any of the Leather Footwear Industry. CFTI is covering Low level and middle level management in the pyramid of Indian Footwear Sector.

Vision

- To become a leading hub of Footwear, Leather Goods, Retail & Manufacturing of lifestyle products
- To establish an infra-structured network which promotes design, development, production & support service system for the Indian Footwear Industry
- To emerge as a centre of excellence Institute in Training & consultancy internationally.

Mission

- To provide world class education to its students
- Foster research & development for the growth of new designs
- Evolve innovation application for making India a global layer in every domain of lifestyle products

जूते के विभिन्न भागों की महत्वपूर्णता (IMPORTANCE OF FOOTWEAR COMPONENTS)

जूते, हमारे पैरों की सुरक्षा और सुखदता का महत्वपूर्ण हिस्सा हैं। इनमें कई विभिन्न भाग होते हैं, जो उनकी उच्चता और उपयोगिता में मदद करते हैं।

सोल (टखना): जूते का सोल, या टखना, एक अहम भाग है जो पैर को ज़मीन से सुरक्षित रखता है और उसे सहारा प्रदान करता है। विभिन्न जगहों के लिए अलग-अलग प्रकार के सोल्स मौजूद होते हैं, जैसे कि गैसपेड सोल्स, जो चप्पलों में होते हैं।

ऊपरी भाग (उपरवाला): यह भाग जूते की आकृति और स्टाइल को परिभाषित करता है। विभिन्न प्रकार की ऊपरी भागें होती हैं, जैसे कि लेस, जिप्स, या विभिन्न धातुओं से बनी स्ट्रैप्स।

इनसोल (अंदरवाला): पैर को सही से समर्थित करने के लिए इनसोल महत्वपूर्ण है। यह पैर को आराम से बैठने के लिए पूरे जूते के अंदर होता है और चलने में सुधार करता है।

हील (एड़ी): हील पैर की ऊंचाई को बढ़ाता है और जूते को एक शैलीशील स्वरूप देता है। इसके अलावा, हील चलने के दौरान बैलेंस बनाए रखने में मदद करता है।

इन विभिन्न भागों के संयोजन से बनी जूते हमारे पैरों को सुरक्षित रखती हैं और उन्हें स्टाइलिश भी बनाए रखती हैं।

SKILL TRAINING PROGRAMMES

"Mr. K. MURALI, Director of CFTI Chennai, distributed certificates to candidates who completed the Skill Development Training in Footwear Designing and Manufacturing Course sponsored by KVIC Karnataka."

SKILL TRAINING PROGRAMMES

Objective of Short-term skill training

- To provide Skill training under NSQF approved job roles for unemployed youth and provide them placement in the Footwear and allied Industries.
- To ensure that the candidates are job ready after training, meeting the required levels of National Occupational Standards created by the Leather Sector Skill Council.

TNSDC Skill Training Programmes:

"CFTI Chennai, serving as a training partner, is conducting a short-term skill training program titled 'Placement-linked Entry-level Training for Unemployed Youth.' This program is sponsored by the Tamil Nadu Skill Development Corporation and is being held in Villupuram, Krishnagiri, and Tirupathur Districts. The training duration spans one and a half months, amounting to 300 hours in NSQF approved job roles.

During this December quarter, the Skill Training Division at CFTI Chennai completed training for 306 candidates, with 157 candidates commencing their skill training. Mobilization is currently in progress for approximately 90 candidates.

CFTI, Chennai is carried out training by setting up training centres at remote villages nearer to Footwear and Leather Goods Industries. The pre survey taken from the MSME and Industry helps CFTI, Chennai to place trained candidates parallelly after successful completion.

The training has also emphasised on shop floor ethics such as 5S, Safety and Housekeeping. Training at the company premises substantially helped in creating shop floor awareness and in addition it has helped to create a very positive attitude for taking up employment in the Leather Footwear sector. Shop floor supervisors have been appreciating the training modality imparted by CFTI, Chennai and stated that it has resulted an increase in Productivity and in addition a reduction of rework & wastages. The training by CFTI, Chennai is thus tailored to meet the industry needs and resulted in Skill Speed and scale for productivity in Companies.

Skill Training under the SHG Program:

Skill Training Programmes have been provided to 504 SC/ST Candidates in NSQF approved job roles under SC/ST fee reimbursement Scheme and 120 candidates were newly commenced in 4 Training centres in this quarter. During the one and half month course duration, Practical and Theoretical training are provided to the candidates in Stitching operator footwear jobrole or Stitcher leather Goods & Garments jobrole.

Assistance to Training Institutions (ATI):

25 candidates at Vaniyambadi Multi Skill Development Centre (CFTI Extn Centre) were completed Skill Training Programme under Assistance to Training Institutions Scheme (ATI) in NSQF Approved Job role Stitching Operator Footwear (LSS/Q2501) and 25 candidates were newly commenced in this Quarter. The objective of the scheme is to build capacity both physical infrastructure and Human Resource (HR) in National Level Institutions under Ministry of MSME to undertake skill development.

Khadi and Village Industries Commission (KVIC):

"CFTI Chennai implemented the KVIC-sponsored Short Term Training program for the year 2023-24 at our institute. Twenty leather artisans underwent the 'Skill Development Training of Footwear Designing and Manufacturing.' To enhance their practical knowledge, we organized an Industrial Visit for the candidates."

PMKVY 4.0 Scheme:

CFTI Chennai has commenced a batch comprising 24 candidates under the PMKVY 4.0 Scheme for the NSQF-approved course, Stitching Operator Goods and Garments (LSS/Q5501). The primary objective of this scheme is to cultivate a skilled workforce and foster an enabling ecosystem for youths to acquire skills and pursue career paths within the footwear and allied industries.

Current Training Programmes:

We are currently conducting a Skill Training Programme for 60 SC/ST candidates under the SHG Scheme, 25 candidates under the ATI Scheme, 24 candidates under the PMKVY 4.0 Scheme, and 157 candidates under the Skill Training Programme sponsored by TNSDC.

PEDIATRIC GAIT ABNORMALITIES – Angular Variations (3rd Series)

Angular Variations

The exact cause of most angular deformities is unknown. However, some conditions that can lead to angular deformities include:

- Knee joint problems
- Birth defects
- Genetic conditions
- Injuries

a) Genu valgum (knock-knees):

Genu valgum, known as knock-knees, is a knee misalignment that turns your knees inward. It is common in young children and usually corrects itself as they grow. Up to 75 percent of children between ages 3 and 5 have knock-knees. When people with knock-knees stand up with their knees together, there's a gap of 3 inches or more between their ankles. This is because their knees are bent so far inward.

Genu Valgum Risk Factors:

If Genu valgum not treated on time, an individual may also suffer from

- Lower back pain in later stage
- Osteoarthritis in knee
- Chronic pain in the foot
- Early knee degeneration
- Plantar fasciitis

Causes of Genu Valgum/knock-knees:

- Injury or infection in knee or leg

- Bone malformation from rickets, a disease caused by lack of vitamin D and calcium
- Other bone diseases
- Obesity, can make genu valgum more severe because obesity puts extra pressure on your knees
- Arthritis in knee joints

b) Genu Varum (Bow-leg)

Almost all babies are born bow-legged. At birth, the soles of a baby's feet face each other with the tibia and femur curved outwards. There is also a space between the knee joints. During the first year of life, the knee joints move closer together, the femur slopes downward and inward toward the knee, the tibia straightens and the soles of the feet point down. During this process, the bones ossify or harden as they change from cartilage to bone. By the time babies begin to walk, the leg bones have hardened and straightened to allow walking by the age 7 or 8.

Causes of Genu varum/Bow-leg:

- Rickets
- Blount's Disease
- Bone growth problem due to lack of vitamin D or calcium
- Genetic problem
- Injury, infection, or a tumor in bone
- Obesity

Treatment Measures for Angular Variations:

Angular Deformity can be corrected by using the following:

- Physiologic bow legs do not need treatment. It usually corrects itself as the child grows.
- A child with Blount disease may need a brace or surgery like corrective osteotomy.
- Rickets usually is treated by adding vitamin D and calcium to the diet. Rickets due to a genetic condition may need more specialized treatment by an endocrinologist
- Reduce weight as Obesity can put added stress on the knees, worsening genu valgum or genu varum.
- Bone stapling

Knee braces for knock knee and Bow leg

Orthopedic shoe

Osteotomy

Osteotomy is a surgical procedure that involves cutting and reshaping a bone near a damaged joint to minimize stress on the affected area.

Bone Stapling

IMPORTANT EVENTS

Shri. Subash Chandra Lal Das, Secretary (MSME), Smt. Mercy Epao, Joint Secretary (MSME) Government of India in a meeting with Shri. Murali K, Principal Director, (CITD Hybd), State Director of Telangana, KVIC and Dr. S Glory Swarupa Director General (NIMSME), Hybd at NIMSME campus.

Shri. Murali K Director CFTI, Chennai and as Additional Charge of Principal Director of CITD, Hyderabad visited CTTC, Bhubaneswar and met its Managing Director Shri. Rajasekar and Shri. Rajan, Senior Manager (Training)

Shri. Subash Chandra Lal Das Secretary MSME at NIMSME meeting with all officials of NSIC, KVIC, CITD & NIMSME in the campus of NIMSME, Hyderabad during his visit to Hyderabad, Telangana.

Mr. George H Liu, Vice President, & Mr. Linch Lin, Director from Nike Division of Pou Chen Corp, POU CHEN GROUP visited and met Shri. Murali Director CFTI, Chennai with his team for the need of Work force to their new shoe factory coming in Ulundurpet.

Shri. Murali K Director CFTI, Chennai visited FDDI campus, Hyderabad and see the facilities of 3D printing, logo Printing, embroidery machine, Automatic sewing/ pattern sewing and knitting machines as CoE for footwear manufacturing.

IMPORTANT EVENTS

Shri.Murali Director CFTI, Chennai, Shri Anbumalar Director PA Tannery, Rpt, Prof K.M.Venkatesan Veteran of the sector, Dr.Beula Suresh Coordinator, AIIC of Auxilium College at vellore for Valedictory ceremony of Leather Goods Training Programme conducted by CFTI, Chennai

Certificates issued by Officials of CFTI, Chennai to the successful candidates on Leather Goods training, trained by CFTI Chennai and also rewarded with a gift by Shri. Anbumalar Director PA Tannery, Rpt to 5 top notches of the batches.

IMPORTANT EVENTS

Shri. Murali Director CFTI, Chennai attended and participated as a special Invitee of Leather Sector Skill Council's 11th Annual General Meeting at Chennai with all Industry members and prominent Owners of leather Industry sector.

Shri. Murali K Director CFTI, Chennai, officers and staffs of Central Footwear training Institute, Chennai taking pledge during Vigilance awareness Week in the Conference Hall of CFTI, Chennai.

Visit of Shri. Murali K, Principal Director and his team to Karimnagar, in talks with Vice Chancellor, Satavahana University, Officials of DIC, Karimnagar & officials of TSIC, Telangana for clearance to establish the Extension centre of CITD Hyderabad.

Dr. Narasimhugari tej Iohit Reddy, IAS Executive Director FDDI, Hyderabad invited Shri. K. Murali Director CFTI, Chennai & Principal Director CITD, Hyderabad to his Hyderabad campus and discussed for Technical exposure.

IMPORTANT EVENTS

Shri.Gurmeetsingh Vice Chancellor of Pondicherry University along with his Faculties & HOD's signed an MoU with Mr.Amit Nain DGM of MSME TC Puducherry accompanied by Shri.Murali K Principal Director CITD, Hyderabad being an mentor to MSME TC Puducherry.

Shri.Murali, Director CFTI Chennai invited as Chief guest at Central Prison,Puducherry to distribute skill certificates imparted by CFTI, Chennai. Shri.Baskar Superintendent of Jail and & guest of honors are on the Dias.

Shri.Murali, Director CFTI Chennai invited as Chief guest at Central Prison,Puducherry to distribute Prizes and skill certificates imparted by CFTI, Chennai on the day of "Gandhi Jayanthi". Shri.Baskar Superintendent of Jail and & guest of honors on the Dias.

Visit of Shri.Murali K Director, CFTI, Chennai along with Prof.K.M.Venkatesan veteran & Don of footwear Industry (80 years) met Shri. Chandra Murali Vice President (HR), KH Shoes, Ranipet and discussed about the Institute/ Industry relationship.

IMPORTANT EVENTS

Shri.K.Murali, Director of CFTI, Chennai, invited Dr. Narasimhugari Tej Lohit Reddy IAS Executive Director FDDI visiting our CFTI institute & all sections.

IMPORTANT EVENTS

CAMPUS INTERVIEW

Campus Interview Conducted By CFTI Chennai to the Students of **DFMD & PGDFT Batch**
With **Apache Footwear India Pvt Ltd & Mr. India Shoes Pvt Ltd**
Coordinated by Mrs. Vidhya, Mrs. Chandralekha & Mr. Manikandan Placement Cell of the Institute.

SEMINAR SERIES CONDUCTED BY CFTI CHENNAI

REPORT ON “I CAD 3D DESIGN AND 3D MATERIALS” (SEMINAR 15 of CFTI CHENNAI SEMINAR SERIES)

As you are aware that CFTI, Chennai has carved a niche for itself for training and making 'Industry Ready' footwear professionals over the last many decades. In its quest to always remain ahead of the curve and to equip its students with the latest developments in Technology, Management Practices, Market knowledge, Quality and Standardization CFTI, Chennai has raised its benchmarks to meet the global market demands and global performance benchmarks. The students who graduate out of CFTI, Chennai are equipped with the most advanced knowledge as well as hands on exposure to the latest Technological developments which sharpens their skills and enables them to help the Industry march forward as they pursue their careers in the Industry.

Footwear is as much Science and Technology as it is an art. The CFTI, Chennai with its state of the art facilities and experienced faculty grooms skilled professionals who can meet the challenges of the Footwear Industry head on in a globalised scenario.

However, along with the knowledge imparted in-house, it is extremely important that the students hear first hand from experienced practitioners in the Industry on various facets of 'day to day challenges' in running an enterprise.

It is in this context that CFTI, Series" for its students to keep Industry be it a New Product, a a New Software, New Practices for Improving Quality Protocols, New Regulations, Management Techniques and This seminar series being Academia in the footwear

Chennai holds a "Seminar them abreast of the latest in the New Process, a New Machine, Automation products, New and Productivity, New Testing New Standards, New many more such useful topics. gather technocrats, Industry & sector.

CFTI Chennai conducted the Fifteenth Seminar in the 'Seminar Series' on 13.10.2023 on the topic of “I CAD 3D Design and 3D Materials by Mr. S. Baskar, Manager – Sales and Technical, PR Groups – CMI Machines Pvt Ltd.

Smt. Chandralekha Ganesh, Technical and Management Faculty and Consultant, briefed about the guest speaker, Shri. S. Baskar.

Shri. YVR. Choudhary, Technical Consultant shared insights on the importance of the topic and how they will impact our footwear industry.

SEMINAR SERIES CONDUCTED BY CFTI CHENNAI

Shri. YVR. Choudhary, Technical Consultant, felicitated the guest speaker with a plaque distribution.

The guest speaker, Shri. S. Baskar, delivered the lecture.

Students asked questions and received suggestions from the guest speaker.

CONTENTS COVERED:

1. About CMI Machines Pvt Ltd
2. Industry 4.0 and its application in footwear industry.
3. Digitalization in the footwear industry
4. What will be our challenges?
5. The benefits it brings
6. A full solution for developing our shoes
7. Outlines of 3D Printing
8. Outlines of ICad3d+ (3D Design and 2D Pattern Engineering)
9. Outlines of ERP Integration, Web Combiner and Web Materials Platform
10. Outline of ICAD Tex Materials Scanner and its Integration with CAD Systems of INESCOP.
11. ICAD 3D PRO – Worldwide Users, South India Users and North India Users.

CFTI Chennai conducted the **Sixteenth Seminar in the 'Seminar Series'** on 20.12.2023 on the topic of **"CONCEPTS IN FOOTWEAR DESIGN AND DEVELOPMENT"** by **Shri. S. Many Selvaraj**, Senior Technocrat

SEMINAR SERIES CONDUCTED BY CFTI CHENNAI

Smt. Chandralekha Ganesh,
Technical and Management Faculty and Consultant,
briefed about the guest speaker, Shri. S. Many Selvaraj.

Shri. K. Murali, Director, CFTI, Chennai, shared
insights on the importance of the topic and how they
will impact our footwear industry

Shri. K. Murali, Director, CFTI, Chennai,
felicitated the guest speaker with a plaque distribution.

The guest speaker, Shri. S. Many Selvaraj,
delivered the lecture.

CONTENTS COVERED:

- Introduction to Footwear Design
- Functional Design Concepts
- Future Trends and Innovations
- Interactive Workshops and Practical Applications.
- Footwear Sizing System

CFTI Chennai conducted the **Seventeenth Seminar in the 'Seminar Series'** on 23.12.2023 on the topic of **"Optimum & Automatic Nesting System and Digital Cutting System"** by **Shri. Arvind Pathak**, Tech. Head, COMELZ India Pvt. Ltd

SEMINAR SERIES CONDUCTED BY CFTI CHENNAI

Shri. K. Srinivasan, Technical and Management Faculty and Consultant, briefed about the guest speaker, Shri. Arvind Pathak.

Shri. K. Murali, Director, CFTI, Chennai shared insights on the importance of the topic and how they will impact our footwear industry.

Shri. K. Murali, Director, CFTI, Chennai, felicitated the guest speaker with a plaque distribution

The guest speaker, Shri. Arvind Pathak, delivered the lecture.

The guest speaker, Shri. Arvind Pathak, gave a demonstration to the students about Optimum and Automatic Nesting System.

The guest speaker, Shri. Arvind Pathak, gave a demonstration to the students about Digital Cutting System.

CONTENTS COVERED:

- About COMELZ India Pvt Ltd.
- Role of Automation in Footwear Industry.
- Products of COMELZ and its Applications.
- Basic Concepts of Nesting and Quality Parameters.
- How does COMELZ help to solve the problem?
- Demonstration on Optimum and Automatic Nesting and Digital Cutting System

DIELESS CUTTING SYSTEM

CFTI Chennai, in line with its tradition of being always in the forefront and bringing the latest technological innovation to Indian Leather and Leather Product Manufacturer, has acquired and installed a new COMELZ Dieless Cutting System comprising of 1. **COMELZ NEK_Optimum & Automatic Nesting System** and combined with 2. **COMELZ CZ Plus L_Digital Cutting System**.

I. OPTIMUM & AUTOMATIC NESTING SYSTEM

- Optimum & Automatic Nesting System specifically designed for cutting leather and non-leather materials. These types of systems are commonly used in industries like fashion, upholstery, automotive, and more, where precise cutting of materials is crucial to minimize waste and maximize efficiency.
- Such nesting systems typically involve advanced software algorithms that analyze the shapes and sizes of the patterns to be cut and then automatically arrange them on the available sheets of material to optimize material usage. This process helps reduce waste and improve the overall yield of the raw materials.
- This is the most efficient system used for production cutting because it eliminates any delay between the nesting time and the cutting time in such equipments and because it centralizes on a standalone system the most skilled activities.

COMELZ NEK: Optimum & Automatic Nesting System

Salient Features:

- The optimum and automatic nesting system is for digitalizing wide skins on the conveyor belt without width, length or quantity limitations.
- It has **virtual pen** that is used to mark the hide defects/quality areas and for the control of the main system commands.
- This system can perform **Leather Measurement/Grading** and **Yield Calculation** (based on real cutting simulation of single or multiple hides), **Leather Digitalizing** (marking of defects and quality areas) and **Comelz Nesting** engine for pattern nesting (manual and automatic nesting).
- It has **lighting intensity and colour control** for an accurate surface inspection of all types of leather and 3 **Integrated LASER** for optimum projection on any leather.
- **Footwear, Leather Goods** and **Automotive industries** can be benefitted by using this system.

Wide and Multiple Skins

Double LED Spot Matrix

Virtual Pen for Defect Marking

Digitalizing and Nesting

Adjustable Light Screen

Control Intensity Lighting Colour

Benefits that are often associated with these systems include:

- **Automatic Nesting:** The software automatically arranges patterns on the material sheets, taking into account factors like material properties, pattern shapes, and any constraints set by the user.
- **Material Utilization:** The primary goal of these systems is to maximize material utilization by fitting as many patterns as possible onto each sheet while avoiding overlaps and collisions.
- **Efficiency:** By optimizing the arrangement of patterns on material sheets, these systems help reduce production time and costs associated with material waste.
- **Customization:** Users can often customize settings to meet their specific production requirements, such as prioritizing certain patterns, maintaining a minimum distance between patterns, or considering material defects.
- **Integration:** Some systems might offer integration with cutting machines and other production equipment, allowing for a seamless workflow from pattern design to cutting.
- **Reporting and Analysis:** Many systems provide reports on material usage, cutting paths, and other metrics, helping manufacturers make informed decisions to further optimize their processes.

II. DIGITAL CUTTING SYSTEM.

- "The Digital Cutting System (COMELZ CZ PLUS L) is designed to produce flexible, versatile, high-performance, technologically advanced, and genuinely innovative cutting algorithms. It is specially configured for multi-ply synthetic cutting (both multi-ply spread and multi-roll) as well as leather cutting. This system caters to both non-leather and leather product manufacturers."
- This type of system would includes features such as computer-controlled machinery, automated nesting algorithms, and the ability to cut intricate patterns, designs, and shapes with precision.
- These systems are designed to improve efficiency, reduce waste, and enhance the overall quality of the cut materials in industries that rely on precise cutting for their products.

**COMELZ CZ PLUS L:
Digital Cutting
System**

Salient Features :

- The **foldable feeder** is designed to load leather, textile and synthetic materials and completed by multi rolls supports. Two practical clamps help to align and stabilize materials on the feeder, **adding precision in cutting process.**
- The Feeder can be easily folded, and works at its best for leather cutting, both with **manual or auto nesting (on-line/off-line).**
- The entire hide can be reached and flattened by either the Front (F) or the rear (R) of the machine.
- Machines are equipped with new generation heads, double head support, new punching units and cutting unit with brushes motor for **boosting productivity with highest quality.**
- CZ+ equipped with vision can cut leather/textile/synthetic materials with **drawings, logos, pre-printed images or roll of engineering mesh or similar patterns.** Final trim of pre-assembled parts can be also done.
- **Cutting Speed:** 60m/min each cutting head. **Maximum Punching Frequency:** 600p/min.
- **Footwear, Leather Goods, Automotive, Apparel and Furniture industries (BOTH LEATHER & NON LEATHER)** can be benefitted by using this system.

Benefits:

- One can start cutting immediately.
- No need to invest in expensive dies.
- Speed up sample production.
- Produce low quantity orders that are too complicated to hand cut.
- Reduce leather costs by reducing wastage.
- Use interactive nesting to give consistent high yields of leather/non leather usage.

The **keys to its success** are principally:

- The Productivity and Accuracy
- The Reliability
- The Interactive Nesting on skins
- The Projection system
- The Cutting Head with multi-tools
- The Vacuum system
- The simple and powerful Software

Operation of the Optimum & Automatic Nesting System and Digital Cutting System under Common Facility Services by CFTI Chennai.

FAIR COMPENSATION

It's never been a secret: if you want to retain your best-performing employees, paying them well typically works like a charm.

Still, many employers make the mistake of trying too hard to play tough and consider impressive performance as something that should be a given.

It's only when things start not working out because they're missing key people from their organization that they start realizing how important they were in the first place.

Key Takeaways On The Importance Of Fair Compensation

1. **Retaining Top Talent:** Fair compensation plays a vital role in retaining high-performing employees who contribute significantly to your organization.
2. **Talent Attraction:** Offering fair pay not only keeps employees motivated but also helps attract top talent, as your reputation for rewarding skills and hard work spreads.
3. **Fairness Matters:** Fair compensation demonstrates your commitment to fairness, which fosters trust and loyalty among your employees.
4. **Motivation and Performance:** Clear signals of performance-based salary increases and advancement opportunities motivate employees to excel, leading to better results.
5. **Building a Positive Brand:** Fair pay contributes to your company's reputation as a just and meritocratic employer, attracting talent beyond traditional recruitment methods.
6. **Competitive Compensation:** Reward employees based on their performance, problem-solving skills, teamwork, and dedication, rather than a one-size-fits-all approach.
7. **Positive Work Culture:** Cultivate an inclusive work culture that prevents bullying and uncooperative behaviour, ensuring all employees feel valued.
8. **Flexible Work Options:** Offering flexibility, including remote work and flexible hours, can enhance job satisfaction and attract top talent.

How Compensation Affects Talent Attraction

Imagine an organization where the boss only wants to pay you as little as possible to get you to use your smarts and talents to resolve their issues. Other than providing high-quality coffee and regularly servicing and rebottling the water dispenser (especially during the summer), a great way to make your employees happy is to pay them fairly.

First of all, fair compensation for the work your employees do will make them stick around when the going gets tough for one of the projects or the company as a whole. Secondly, however, the word will go out that your company is a place where skills, talent, and hard work are appropriately rewarded. This way, rather than bending yourself backward and attempting to embellish your 'We're hiring!' online posts, good old word of mouth can help you attract some of the best specimens from the local and international talent pool.

Fairness

No one likes being on the receiving end of a power move from a higher-up.

No one likes having to carry the workload of other, less competent co-workers, who are paid the same as them.

To keep a high-achieving employee, compensating them fairly for their input and the results they're securing for your company is not only a way to hook them with money but also to show you understand the concept of fairness.

Motivation

If an employee with potential sees other folks who have potential stagnating in the same spot for years despite their excellent performance, they will likely stop trying as hard themselves and approach work in a more non-competitive way.

As a result, you will end up with a team of people who are only putting in minimal effort in their work, which will inevitably show when it comes to the overall results.

On the other hand, receiving clear signals that an increase in performance and more palpable results will also mean a higher salary and prospects for a better position in the corporate hierarchy can make your employees motivated to try harder.

Branding

This goes back to attracting the right sort of talent, not just through online and offline job advertisements, but also by establishing a reputation as a just and meritocracy-appreciating employer.

No amount of cappuccino-making coffee machines, lazy bags, and team buildings can replace getting paid fairly and recognised for your achievements.

Different Factors That Can Help Attract And Retain Top Talent

As we have seen, attracting and retaining top talent is not just about being a company with a good name, generally speaking. It's also about earning a reputation among the new employees themselves.

Some of the most impressive businesses in the world are known to exploit their employees and impose, at times, inhumane work conditions with inadequate pay because they can get away with it.

For a small-to-medium-sized company, however, you cannot afford to have your reputation tarnished like that, as hiring the best of the best in your line of work is essential for achieving the results you need.

Competitive Compensation

... does not mean simply showering anyone who looks smart with money from the get-go.

What it does mean, however, is paying attention to how your employees perform and rewarding the ones who can get stuff done.

Problem-solving, being a good team player, and having the grit to see a tough project through should be the main motivating forces behind considering increasing a worker's salary.

A Positive Work Culture

Another major aspect of attracting talent is setting up a positive work culture where everyone feels included.

While some workplace competitiveness can get a tad rough at times, what you as an employer must do is prevent bullying, deliberate exclusion of some employees by others (a form of mobbing), and other uncooperative and unprofessional behaviour.

You don't want to risk losing some of your best workers because they were pestered to no end by a coalition of jealous coworkers.

Flexible Work Options

If there's an option to work remotely, why not allow your employees to have a day of walking around their laptops in slippers? (The employee's cat might insert itself as a part of the new project, though. Other than that minor inconvenience, everyone would jump at the opportunity to have a day or two out of the office.)

Flexible work hours and working out of the office at times can be a great way to introduce some variety to your workers' schedules.

And you get a couple of 'cool boss' points. It's a win-win-win!

Conclusion

In a culture where money makes the world go round, paying your employees decently is an important part of 'exercising fairness' that you should not overlook.

This way, when the word gets out that you are a fair and just employer who recognizes and rewards talent, skill, and hard work, you will start attracting the kind of people that "match the description" too.

பழ கழிவுகளிலிருந்து இருந்து தயாரிக்கப்படும் ஒரு மக்கும் பொருள் சைவ தோல்

(சைவ தோல் - மூன்றாவது தொடர்)

நிலையான பொருள் கண்டுபிடிப்புகளில் முன்னணியில் இருக்கும் ஒரு நிறுவனம் PEELSPHERE® ஆகும், அவர்கள் வாழைப்பழத்தோல் மற்றும் பிற பழங்கள் மற்றும் காய்கறி கழிவுகளை பயன்படுத்தி நீடித்த மற்றும் பல்துறை தோல் போன்ற பொருளை உருவாக்குகின்றனர்.

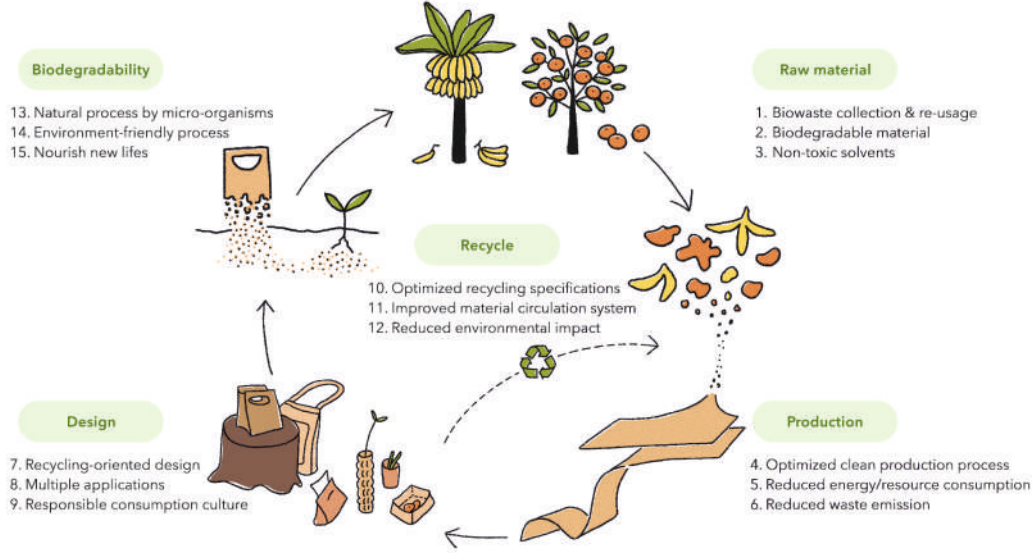

வாடிக்கையாளர்கள் சமரசம் செய்ய வேண்டிய அவசியமில்லை, ஆனால் ஃபேஷன் குற்ற உணர்வு மற்றும் கொடுமையற்றதாக இருக்க வேண்டும் என்று அவர்கள் நம்புகிறார்கள். எனவே, பாரம்பரிய தோலைப் போல தோற்றமளிக்கும், உணரும் மற்றும் மணம் கொண்ட பனோஃபியை அவர்கள் தயாரித்தனர். விலங்குகளைக் காப்பாற்றவும், நச்சுக் கழிவு உற்பத்தியைத் தடுக்கவும், விவசாயிகளுக்கு கூடுதல் வருமானத்தை வழங்கவும், பயிர்க் கழிவுகளை அதிகரிக்கவும், நமது பூமியைப் பாதுகாக்கவும் ஒரு புதிய முயற்சி செய்கிறார்கள்.

PEELSPHERE ஆனது ஜெர்மன் நிலைத்தன்மை விருதை வென்றுள்ளது, ஆக்ஸ்ஃபோர்டு ஃபவுண்டரியின் அனைத்து புதுமையான விருதையும், கெரிங் குழுமத்தின் கே-தலைமுறை விருதையும் வென்றுள்ளது.

பனோஃபியின் உருவாக்கம் 50 சதவீதம் வாழை கழிவு மற்றும் 30 சதவீதம் இயற்கை சேர்க்கைகள். மீதமுள்ள 20 சதவிகிதம் தோல் ஆதரவிற்குத் தேவையான முதன்மையாக மறுசுழற்சி செய்யப்பட்ட பாலிமர்களில் இருந்து தயாரிக்கப்படுகிறது, ஏனெனில் பாலிமர்களை சார்ந்திருப்பதை புதுமைப்படுத்தவும் குறைக்கவும் செயல்படுகிறது.

மீதமுள்ள வாழைப்பழம் மற்றும் ஆரஞ்சு தோலைக் கேட்க உள்ளூர் பழச்சாறு சப்ளையர்களைத் தொடர்புகொண்டு அவர்கள் செயல்முறையைத் தொடங்கினர். குழு பின்னர் ஒரு உற்பத்தி செயல்முறையை உருவாக்கியது,

அதில் தோலில் இருந்து ஃபைபர் மற்றும் பெக்டினை பிரித்தெடுத்து, அதை ஒன்றாக கலந்து பயோ-பைண்டரைப் பயன்படுத்தி நன்றாக துண்டுகளாக மாற்றி இக்கலவை இயற்கை சாயங்களைப் பயன்படுத்தி சாயமிடக்கூடிய தோல் போன்ற பொருட்களின் தாள்களை உருவாக்குகிறது.

சமூகத்தின் தாக்கம்

பழ கழிவுகளை சிறு விவசாயிகளிடமிருந்து மட்டுமே பெறுகிறோம், இந்த கழிவுகள் பயன்படுத்தப்படுவதில்லை. இந்த விவசாயிகள் எங்கள் வணிகத்தின் மையமாக உள்ளனர், எங்கள் செயல்முறைக்கான முக்கிய மூலப்பொருளை எங்களுக்கு வழங்குகிறார்கள் மற்றும் அவர்களின் மதிப்புமிக்க விளைபொருட்களுக்கு இழப்பீடு வழங்குகிறார்கள், இதையொட்டி பயிர் எரியும் நடைமுறைகளைத் தடுக்கிறார்கள். இந்த கழிவுகளை அகற்றுவதால் வயல்களில் தண்ணீர் தேங்குவதும், கொசுக்கள் மற்றும் தேள்களின் உற்பத்தியும் குறைகிறது.

OSURI ASSOCIATES was established in 1999 to support the footwear industry. We are an exclusive importer and distributor of different types of Footwear Component Materials from specialised, high quality, manufacturers. We are supplying to the shoe manufacturers / exporters mainly in South India. Some of the materials which the company currently deals in are listed below.

- Toe Puff and Counter Stiffener Material
- Synthetic P.U. Lining & P.U. Leather
- Microfiber Suede & Lining Material
- Synthetic Heelgrip Material
- Non-woven Insole & Strobel Material
- Shank Board Material
- Cellulose Insole Material
- Synthetic Latex Foam Material
- Poly Propylene Cutting Boards

OSURI FOOTWEAR COMPONENTS PVT. LTD. (OFCPL), part of Osuri Group of Companies is a manufacturer of different types of Moulded Insoles, Cut & Skived Toe Puffs and Pre-Moulded Counter Stiffeners according to customer's specifications. The company has a wide range of moulds to suit different last shapes and has a pool of trained and experienced manpower. It procures Cellulose and Shank Board material directly from manufacturers and is able to offer good quality insoles at a competitive price. Italian machinery is used to make Insoles, Cut & Skived Toe Puffs and Pre-moulded Counter Stiffeners and stringent quality processes ensure the best quality output. The current capacity is 8,000 pairs a day.
